

## Amendment Proposition No1

### 1. NEW Provision: MISSION/VISION STATEMENT

**Reason:** Council considers that the Institution should have clearly stated Vision and Mission Statements that should serve as the Guiding Lights for IEM and which should influence all the Institutions initiatives present and in the future. The founder members had set themselves, as a priority, the protection of the society by ensuring that only suitably qualified persons engage in professional engineering. This has been adjective through the registration of practising engineers. IEM should now be more decisive in its actions to enhance the professional standing of engineers.

#### Proposed Amendment

	EXISTING		PROPOSED
2.0	Objections and Constitution	2.0	Objects, Constitution and Vision and Mission
2A	New	2A	Vision and Mission
2A1	New	2A1	Vision Statement
