

WHAT OUR MEMBERS SAY

I have enjoyed my membership at IEM since 1976, 45 years and have as a member/ rep of IEM attended locally and overseas engineering Conferences/Events, also enjoyed reading IEM Journals. I still go to all AGMS to network and meet colleagues. I strongly recommend our young engineers to join IEM

H. V Jadav BECivil FIStructE FIEK FIEM
Retired and ex MD SJPCE Ltd & Past President
IEM

Being part of the IEM family has been an enlightening experience for me as well as an instructive one. It has also been an inspiring journey to interact with the senior members of the institution, and who have had an active role in the growth of our communities. I am looking forward to upgrade to the next level. More and more engineers should join the IEM so that together we can make a difference! It's through our networking that we engineers can generate creative ideas and solutions for a better Mauritius.

Geetanjali Seewoosurrin AMIEM
Senior Customer Services Officer, CEB

Wish to fast track my knowledge input and that's why I joined IEM, to attend training, talks and workshops as well as network with experienced seniors. Looking forward to benefit from Mentoring eventually and proud to be with IEM.

Aurelia Manan Student Member
UOM 2nd Year Chemical Engineering Student

I was coopted as IEM Council Member just after joining in 2020 and elected Treasurer soon after. I have attended several seminars/training/ workshops organised by the IEM which has enable me to keep up to date with Continuous Professional Development (CPD). I have also extended my professional network with engineers and other professional in different fields. IEM's Mentoring Programme is for assistance to fresh graduate engineers for registration with the Council of Registered Professional Engineers of Mauritius. The Accreditation of Engineering Programmes, in line with International Engineering Alliance is a very noble cause for Engineers. I am happy to recommend all young and less young engineers to join the IEM.

Sandesh Kumar Purmessur MIEM Engineer ICTA
Current Treasurer IEM

ABOUT IEM

The Institution of Engineers Mauritius is the voice of the engineering profession of Mauritius and is seen as an equal partner alongside the world leading professional engineering Institutions in the search of solutions to the Global Challenges facing the World and especially Small Island Developing countries like Mauritius.

IEM fosters engineering science and its application in all engineering disciplines and endeavours to ensure the highest standard of service in engineering.

IEM promotes excellence in engineering education through the establishment of an appropriate framework for accreditation of engineering degree programmes to internationally recognised standards for entry into practice of engineering. (Washington Accord)

BENEFITS OF MEMBERSHIP

- | | |
|--|---|
|  Networking with engineers from all disciplines of Engineering |  Internationally Recognised Certification such as AMIEM , MIEM , FIEM & PEng |
|  CPD Courses in our Training Centre |  Representation in various Boards & Institutions |
|  Engineers are recognised & publish technical papers |  Talks/Webinars/Workshops & Visits to key Engineering Sites |
|  Be part of the International Engineering Fraternity |  Guidance from Mentors for Registration with CRPE |
